

Lucky Stiff™

A companion bet for regular blackjack that offers some LUCKY prospects when you get a "stiff" hand on the deal.

How to Win

Start by placing your main wager and optional Lucky Stiff wager. After receiving your first two cards, your Lucky Stiff bet immediately wins if you have a stiff pair (66, 77, 88) or blackjack, and qualifies to win if you have any unpaired stiff hand (hard 12 - 16).

Blackjack resumes in the normal manner and a qualified stiff wins if you beat the dealer on the main bet. Ties push.
